Agrima Jain

LinkedIn - Personal Portfolio - agrimajain223@gmail.com

INTERESTS

Passionate about machine learning and web development. Eager to explore the tandem of machine learning algorithms, computer vision, natural language processing and much more.

EDUCATION

2022 – PRESENT **B.Tech Computer Science and Engineering**
UPES, DEHRADUN
CGPA 8.43

PROJECTS

Identity Gaurd

Code – Project

A facial recognition system designed to detect faces, recognize individuals, and display their names along with login time. Developed to enhance security measures and simplify access control processes by automating user identification.

Technologies: Python and OpenCV, CVZone, Face Recognition libraries.

ACHIEVEMENTS

Hackathon Finalist
Made it to the top 15 teams out of 100 teams in Hackathon 7.0 held by UPES-CSI.

Coding Challenge
Won 10 day coding challenge held by Open Community during Open Learning Program.

Poster Presentation
Won 3rd prize in Poster Presentation competition held for first year students at UPES during IBM Ice Day.

VOLUNTARY POSITIONS

2023 - PRESENT **Website Lead**
OPEN Community UPES
Handling a team of 3 to create and maintain the community website.

2023 - PRESENT **Core Member**
Google Developers Student Club, UPES
Creating Website, holding Workshops and designing posters.

2022 - PRESENT **Design Core Member**
Computer Society of India, UPES
Designing posters and videos for the community.

2022 - 2023 **Technical Core Member**
Computer Society of India, UPES
Contributed in creating the community website.

2022 - 2023 **Technical Core Member**
Microsoft Technical Community, UPES
Contributed in creating the community website.

SKILLS

LANGUAGES : Python, Java, Html, CSS

TECHNOLOGIES : ReactJs, Tailwind, MongoDB, Node

SOFTWARES : Adobe Photoshop, Adobe Premiere Pro

GRADUATE LEVEL COURSES

- Supervised Machine Learning: Regression and Classification
- Introduction To AIML
- Data Structures and Algorithms
- Operating System
